Call 2014 - Open Call

MARTEC II Call Information

Introduction

[Registration](#) for partner search for call collaboration (EoI)

[Registration](#) for call (Open an account)

MARTEC II opened a transnational call for collaborative research projects in different areas of maritime technologies (**deadline: 30.04.2014**). This call is initiated by funding organisations from fourteen different European partner countries of the ERA-NET MARTEC consortium.

After submission of the proposals via the MARTEC web page, the proposals will be assessed by an international expert group. Each country has own national maritime programmes and the financial support for the projects will be awarded by the national funding organisations. Priority for funding will be given for projects which include at least one independent industrial participant from each involved country. Entities like universities or research centers are very welcome as project partners. They can apply for funding as well (if supported by national regulations). Only projects, which receive funds from at least two countries, will be supported.

Registrierung für den Koordinator

The screenshot shows a web page for registration. At the top left is the MARTEC ERA-NET logo. Below it is a button labeled "Back to website". The main content area features a large image of a container ship at sea. Below the image are links for "Submission Login", "Martec II Open Call Login", and "Martec II Open Call Registration". A login form is present with fields for "Login Name:" and "Password:", and a "login" button. A note below the form says "If you lost or forgot your password, please click [here](#)." The right sidebar contains navigation links: "Home | Print | Sitemap | Imprint", "News", and "Download". At the bottom, there are logos for the European Union, PTJ, and the German Federal Government.
